# Endorsement from Japanese Startups

I strongly recommend Garage+. We are a deep tech startup, many people think about technology, and they have deep synergy with deep tech startups in Taiwan. Garage+ can help us expand and think about the idea, not only in Taipei but also worldwide.

- CEO, Hiroki Imabayashi 今林広樹

Garage+ helped us attend Meet Taipei, a huge event for startups to meet potential investors. Besides, they arranged a lot of business matching meetings for us.

- Founder, Rudder Wu

I am amazed by the large number of startups participating in the Garage+ program and impressed by their strong development mindset. I believe that Taiwan is becoming the next Silicon Valley of the world.
