Established in  
10 years

Funding Stage  
Seed ~ Series B

Aim to cooperate with  
Taiwanese firms

Attendees must be  
founders/C-levels

# 2026 Program Schedule

※ Finalists shall finish the questionnaire after the program

# Endorsement from Japanese Startups

## bestat

This program connects all the important stakeholders here in Taipei, so it was very valuable for us. One of the people I met here is planning to come to our office next month. We have also scheduled two meetings to discuss POCs.

JAPAN  
AI & Digital Solution

bestat

We want investors.

We want business partners.

bestat 透過東京大學前沿技術打造 3D 資料代理,重新定義空間資料的應用 — 將複雜環境轉化為精準的數位孿生,幫助建築、基礎建設及能源公司,將現場人工作業量最多減少 40%。我們實踐的使命是,讓空間資料在全球範圍內更易取得、可靠且具影響力。至今已服務超過 50 家日本企業,正積極拓展全球市場。

bestat is a startup redefining spatial data utilization through 3D data agent powered by cutting edge technologies of Tokyo University. We convert complex environments into digital twins, enabling construction, infrastructure, and energy companies to cut on-site workload by up to 40%. Having already supplied more than 50 Japanese companies, we are now scaling to address global markets and make spatial data accessible.

## FOX

The benefit of this program is that we can meet members we cannot reach on our own, and I think this can expand business opportunities for Taiwan.

## AirMembrane

Garage+ offers many business opportunities in the semiconductor domain, manufacturing, and materials companies, so you can meet people you cannot meet in your country.

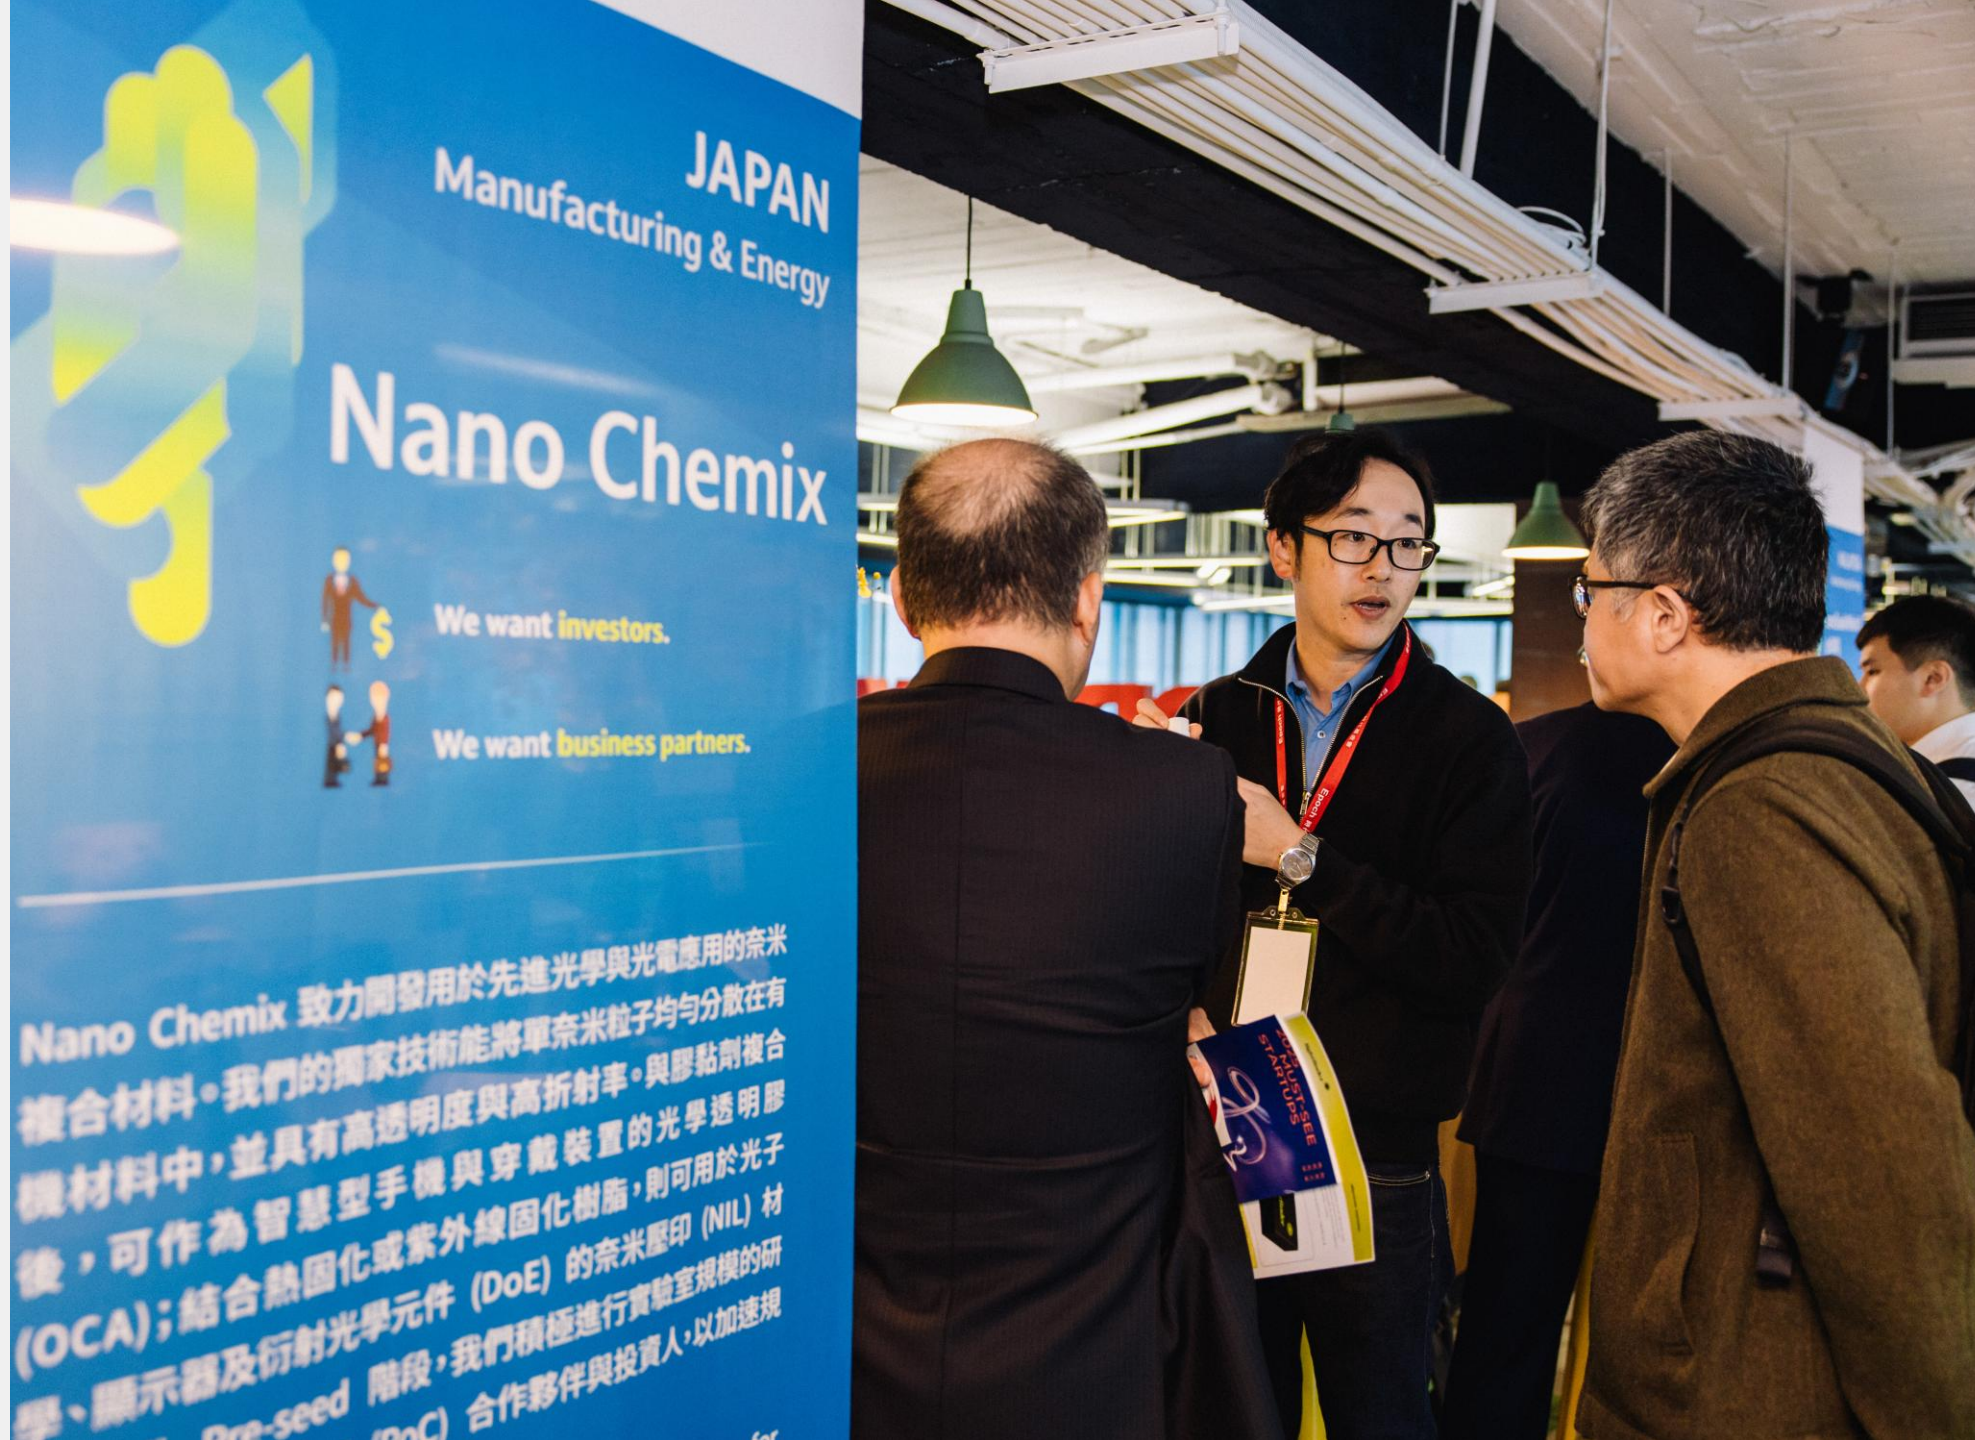

## Chemican

The benefits of Garage+ are unbelievable. Especially for the one-on-one meeting with top-tier companies in Taiwan, this helps us to grow faster.

## Nano Chemix

By joining this program, I was able to meet Taiwanese companies and investors who had been difficult to approach from Japan. It was also valuable to build connections efficiently within a short one-week period.
